Wharf Planters

Wharf planters are manufactured from 45mm thick Iroko Hard Wood, 5mm Stainless Steel and 5mm Galvanised Metal are used making them very durable with a long life. The metal frame work can be powder coated if needed to any BS 5252 or Ral colour.

The Iroko hardwood comes with an oiled finish as standard and will weather naturally to a grey silver if not re-applied every couple of years.

Other stains, varnishes or paints can be applied if preferred.

Planters come with an internal fitted GRP liner and can be moved by means of pallet truck or fork lift.

Adjustable feet are fitted as standard to over come the problem of uneven surfaces.

The wharf planter can have seating added to the larger sizes either 1, 2, 3 or 4 seat benches can be fitted.

Bespoke sizes can be manufactured, please call

Decking Planters

Planters are manufactured from pressure treated decking timber 120mm x 30mm, all inside faces of planters are also coated in a layer of bitumen and a polythene liner is also included. If a more substantial liner is required we can factory fit a GRP liner.

Any bespoke size can be manufactured, please phone

SA 45	450 x 750
SA 50	500 x 1000

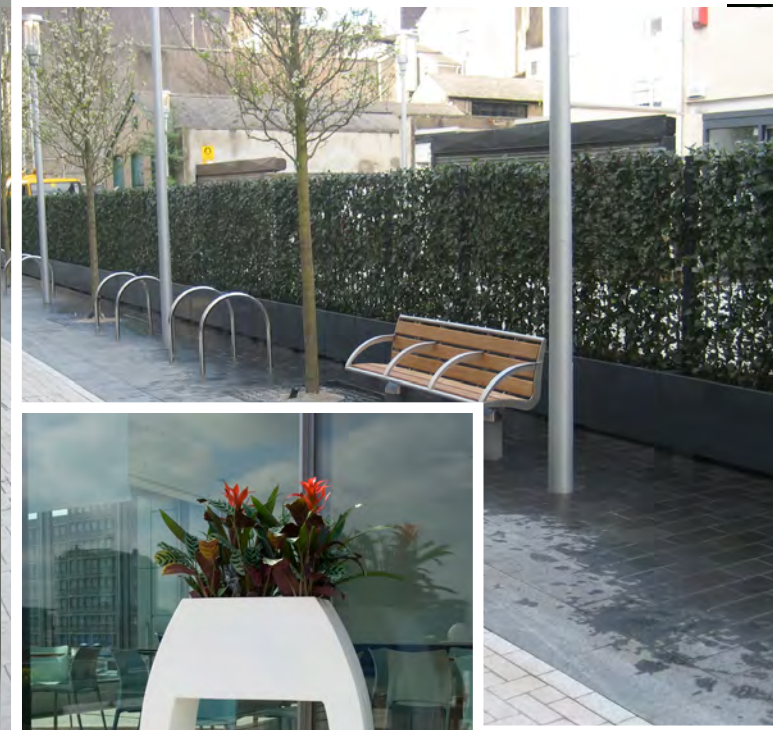

Bespoke Planters

With the growing demand by architects for more innovative and unique planters, we can now offer the landscaper a bespoke service second to none. Planters can be manufactured from Galvanised Metal, Stainless Steel and lightweight Aluminium. Planters can be made to your exact specifications with very few restrictions on design. Due to the method of manufacture of complex shapes, all planters need to be powder coated to any BS5252 or Ral Colour.

Please submit drawing with sizes for quotation.

Wrought-Iron Furniture & Wall Troughs

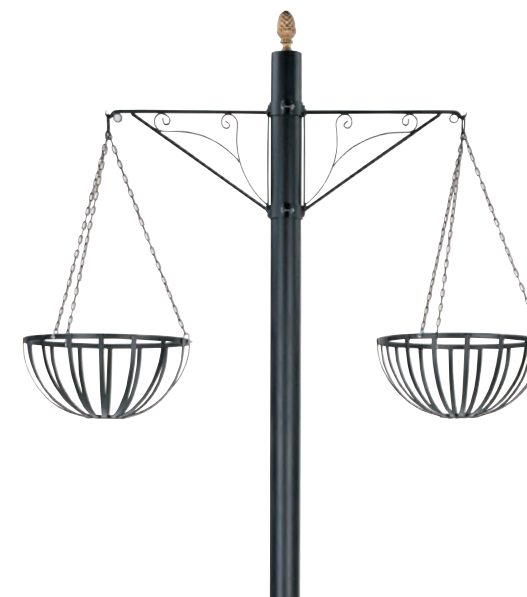

All wrought-iron products are made from high quality materials and are available in matt or gloss black as a standard colour. Any other colour can be supplied at an additional cost of 10%. Please enquire for any other sizes not listed for a quotation.

Heavy Duty Wall Brackets

Wall Brackets can be provided with a security ring to enable the basket to be easily wired or padlocked on to the bracket as a deterrent against theft. A cost must be added per arm for this feature. All brackets come with a standard black matt or gloss paint finish.

Medium and Large Wall Baskets

Hanging Baskets on Post Brackets

Post Baskets

Wall Troughs

Substantial metal pre-drilled brackets are supplied with the "Bracketed Wall Trough" planter. The brackets locate to the rear and underside of the planters, allowing a neat fit to be achieved.

If extra security is required, the Bracketed Wall Troughs can be secured to brackets by bolting through the base of the planter and then through the bracket.

ceramic style

julius

the most versatile planter of our range

ceramic style

julius

solid, ribbed and incredibly strong

julius

Strong, close ribbing makes this a contemporary classic and favourite for tree planters and roof gardens. But with a huge range of standard sizes and the option to build any other size to order, Julius is the most versatile of our range – and justifiably a best seller.

Tree 4 (tuscan terracotta)

Tree 3 (textured flame red with pallet base)

Tree 2 (polished silver)

replica rocks

Amazingly realistic and ultra-lightweight.
