Self-Watering  
Natural Plant  
Displays

# OFFICE LANDSCAPES

A prestige range of high quality self-watering plant displays for pleasant work surroundings and reception areas

## CONTRACTS AND MAINTENANCE

Plants are delivered directly to specific projects and are maintained by our own trained personnel. There are two schemes:

- (1) Contract rental plan inclusive of maintenance, with no capital outlay involved.

- (2) Outright sales of plants and containers with an optional separate maintenance contract.

The maintenance programme consists of a schedule of visits arranged with the client to cover watering and feeding, cleaning of plants and containers, pruning and replacement of plants where necessary.

## APPLICATION

Interior planting is used extensively to create the best working and living conditions in offices, reception areas, public buildings, restaurants and showrooms. A well designed interior will be brought to life with foliage, to contrast a neutral background scheme or complement primary colours. Planting will enhance any interior, irrespective of style, old or new. Open plan offices are divided with screen planting which also mark thoroughfares; desks and cabinet tops are softened with greenery and hanging plants are used to highlight corners as a point of visual interest.

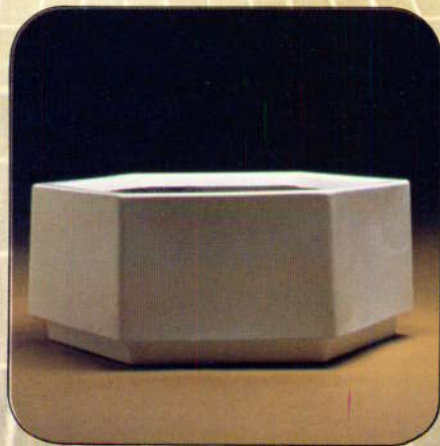

## CONSULTANTS

A consultancy service is offered to Architects and Interior Designers, to assist with the choice and suitability of plants for various environmental conditions.

Early involvement on the design concept is welcomed by Office Landscapes, who will advise on lighting, humidity, temperature, built-in planter details and all aspects of interior planting.

The perfect complement to  
open plan offices, reception areas, foyers, showrooms  
dining rooms, etc.

## THE OFFICE LANDSCAPE DISPLAY

- ★ NO CAPITAL OUTLAY
- ★ MINIMAL MAINTENANCE COST
- ★ REGULAR SERVICE CALLS
- ★ RESERVOIR SELF-WATERING SYSTEM
- ★ REPLACEMENT PLANTS AT NO EXTRA COST
- ★ OUR AIM IS YOUR SATISFACTION
